

Animals, including humans

Senses Go!

sight

hearing

touch

taste

smell

Parts of the Body Go!

body	all the physical material that makes up a person or animal, including limbs, organs, tissue, and other parts
hearing	Your ears let you listen to all the things around you. Your brain is able to tell what different sounds are.
sense	any of five ways to understand or experience one's surroundings. The senses are touch, smell, taste, sight, and hearing
sight	Your eyes let you see all the things around you.
smell	You smell using your nose. Your nose can tell if things smell nice or not nice.
taste	Your sense of taste comes from your tongue. You can tell if something tastes bitter or sweet. You might have some tastes you like and some you don't.
touch	Your skin gives you the sense of touch. You can tell if something is warm, cold, smooth or rough without even looking at it!

Animals, including humans

Mammals Go!

human

mouse

dog Go!

cow

Birds Go!

penguin

chicken

flamingo

robin Go!

Fish Go!

goldfish

tuna

shark Go!

eel

Reptiles Go!

snake

tortoise

lizard

alligator Go!

Amphibians Go!

frog Go!

toad

newt

salamander

amphibians	Amphibians live in the water as babies and on land as they grow older. They have smooth, slimy skin
birds	All birds have a beak, two legs, feathers and wings.
carnivore	Animals that mostly eat other animals (meat) are carnivores.
fish	Fish live and breathe under water. They have scaly skin, fins to help them swim and they breathe through gills.
herbivore	Animals that only eat plants are herbivores.
mammals	Mammals are animals that breathe air, grow hair or fur and feed on their mother's milk as a baby.
omnivore	Animals that eat both plants and other animals are omnivores
reptiles	All reptiles breathe air. They have scales on their skin.
